

AGM AUTROY AUTPS-2002MH

Double Head Double Axis Pocket Setter

- Strong technical service team, spare parts stock guarantee and reasonable price guarantee for spare parts
- Neat Finishing; Edge folding capability from 8 mm to 35 mm. No excessive fabric inside of the pockets. Minimize problems from cutting mistakes
- The pocket molds can be easily exchanged within the matter of 2-3 minutes
- Pocket setter for workwear and other large pieces up to 270*270 mm sewing area
- Pocket setter sewing area start from 40*40 mm for kids wear, coin pocket on pocket facing or pocket facing on pocket bag
- Perfect seam quality
- There is no visual differences of the inner and outer seams due to direction of sewing.
- Easy operation and short training time
- Touch Screen PC with software (windows embedded) for the creation and modification of seam programs.
- Screen control system allows easy adjustment of Stitch step length
- The touch screen control system allows the immediate and ease of correcting modification of the sewing program, including the bar tack.

Technical Specifications

- High production capacity thanks to servo controlled motors capable of reaching 4000 rpm
- Automatic oiling system for needle bar, hook and needle foot
- Linear transport system.
- Screwed shaft movement transfer
- Needle cooling system.
- Cleaning system against fabric dust in hook section
- The ability to operate the desired head with one button with the same program in double head machine
- The ability to keep unlimited programs in memory thanks to the PC system used in the Elektronik section
- Low mold cost
- Maximum efficiency due to automatic pocket creasing, pocket attaching and stacking
- Excellent pocket folding units and corner turn quality at the seams
- Ability to perform different sewing motifs sequentially in right and left pockets on the same pattern
- Able to work any kind of fabrics. Jeans, shirts, knits, towel, gabardine or other kind of fabric pockets can be sewn. It is also possible to process striped and checked fabrics as per pattern directly at the sewing unit without any problems
- Single and double color seams, additional and decorative seams for individual design
- Seam programs can be transferred via USB
- The ability to connect to the machine remotely via Wi-Fi
- The ability to attach cargo type pockets through the design of the machine.
- Thanks to the design of the machine, the ability to attach pockets to the panels with the riser attached.
- Thanks to the design of the machine, the ability to attach the pockets of bathrobe and derivative garment products.

Model İsmi / Model Name	DOUBLE HEAD DOUBLE AXIS (AUTPS-2002MH)
Dikiş Alanı / Sewing Area	270x300 mm (x-y)
Maksimum Dikiş Hızı /Max. Sewing Speed	3600 rpm
İlmeğin Uzunluğu / Stitch Length	0.1 mm-5 mm
İğne / Needle	DP5 (120)
Çağanoz / Hook	Full rotary 39.75mm Ø
Kaydedilebilir Desen Sayısı / Number of Recordable Patterns	Sınırsız Desen Kayıt Edilebilir / Unlimited Patterns Can Be Saved
Besleme Yöntemi / Feeding Method	Servo Motor
Volaj / Voltage	220V
Frekans / Frequency	50 Hz
Güç / Power	7 kW
Hava Tüketimi / Air Consumption	4.6 bar 240 dm
Ağırlık / Weight	1085 Kg
Boyutlar / Dimensions	2850x1400x1150 mm
Dakikada Ortalama Çıkan Ürün Sayısı / Average Number of Products Released Per Minute	7-10 Adet / 7-10 Piece (According to mold size)
Yağlama Sistemi / Lubrication System	Automatic
İplik Kesme Mekanizması / Thread Cutting Mechanism	Automatic
Çaputlu / Noise	Max 50 db
Kalıp Sistemi / Mold System	2-3 Dakika Değişim Zamanı İle Kolayca Değiştirilebilir / It can be easily changed with 2-3 minutes change time
Kontrol Sistemi / Control System	PC Control system
Program Navigasyon Sistemi/Program Navigation System	Easy Switching between patterns and programs
